

Dental Makeovers

You can achieve confidence and success with a smile you can be proud of

At Bachelors Walk Dental Practice we can give you the smile you have always dreamed of. At the dental makeover consultation we will discuss all of your options with you. A range of treatments are available to achieve that perfect smile.

Tooth whitening

We can whiten, brighten and lighten your smile with our custom made home whitening treatment.

Veneers

Provide a wafer thin mask to hide discolouration on teeth and close unsightly gaps with little or no work needed on the tooth itself.

Crowns & Bridges

We can cover unsightly teeth using crowns. Spaces between teeth can be filled using bridge work either attached to crowns or by using the latest in adhesive dentistry.

Natural Coloured Fillings

Metal fillings can now be replaced by natural tooth coloured fillings to improve the look of your smile.

Book a dental makeover consultation today and achieve the smile you have always dreamed of...
