## MAGAZINES AND TELEVISION

Focus on the body beautiful, the perfect smile

Most of us feel nervous meeting new people and in certain social situations, We can help you feel more comfortable and confident in your smile with a range of cosmetic dental procedures.

Professional Dental Whitening can restore the luster and brightness to your teeth, leaving them whiter than ever before.

Professional whitening can be completed in a couple of weeks from as little as one hour per day. You will start to see the difference in a couple of days.

Dental Crowns and veneers can straighten and revitalise filled, crooked or mis-shapen teeth. Ask how we can help.

Your special day

We can arrange special rates for dental whitening for you and your bridal party.

Give your day and your photos that extra sparkle

**£30 Off Tooth whitening**

with this Voucher, Not available with any other Offer Valid until March 31st

# IN THE HANDS OF PROFESSIONALS

You may know dentists are registered with the General Dental Council in London.

Our dental hygienists, Heather Melanie and Janet are also registered and recently our senior nurse, Natalie, having completed her professional qualification has taken another step forward and registered as a Dental Care Professional with the GDC. Natalie is also working towards a qualification as a **oral health educator** to work with those who need more preventive help. The rest of the team are in the process of registering

**Recently the team in the practice have been very busy.**

In 2005 we were one of the very first practices in Northern Ireland to achieve the Denplan Excel Accreditation. A quality mark ensuring the quality of care provided, in November we were successfully re-accredited

Throughout 2007 we have been working along with Local company, *Jenkinson Consulting* toward the prestigious Investors in People business award.

In December we were formally assessed and again we have been one of the first dental practices to meet the rigorous standards required for this prestigious award

Throughout 2007 Dr Wallace has been traveling to study Advanced Cosmetic Techniques with Dr Mizrahi: Harley street's top Cosmetic dentist.

## Missing teeth: a solution

In Years gone by missing teeth were commonplace. Now modern dental techniques can mean most teeth can be saved. Root Canal Therapy can be used to save many painful teeth. In the practice Drs Henderson and Wallace have invested heavily in the equipment and training needed to mean the most reliable solution.

Occasionally a tooth can't be saved or was taken out years ago. These missing teeth can be replaced using bridges fixed in place on the adjacent teeth, or using a dental implant which replaces the missing tooth root.
